

Parachute Problems

I wanted to find out if the size of a parachute affects how long it takes to fall?

I made three parachutes, from carrier bags, each with a different sized canopy. To make the test fair I made sure that the _____ was the same each time.

I predict that

I tested my parachutes by:

Results:

| Parachute description: | Time to fall: | | |
|------------------------|---------------|--|--|
| | | | |
| | | | |
| | | | |

Conclusion:

The _____ parachute fell the fastest.

The _____ parachute fell the slowest.

This shows that _____
