

LO: To identify and classify a living thing according to its characteristics

Watch the video and complete the task underneath the clip

<https://www.bbc.co.uk/bitesize/topics/zn22pv4/articles/z3nbcwx>

What makes an insect, an insect? What are the features?

Label the similar features of the beetle that classify it as an insect

Can you find any differences between these two insects?

---

---

---

Now we understand how we classify an insect; we now need to make a suitable habitat for them. You are going to plan and create your very own bug hotel!

## Planning

Draw a design for your bug hotel. This hotel can be in your garden, or a suitable area close by.

You need to think about...

- What features does your hotel need to make it an appropriate habitat for an insect
- Explain why you have included each feature of your hotel

## Design

Using your plan to create your very own bug hotel!

**Challenge – Come up with a creative name for your bug hotel!**
