

Why are National Parks Important?

New Forest, Black Forest and Yellowstone.

Which skills will I learn?

- Using atlases to locate places within the UK, focusing on key physical and human characteristics, National Parks, and major cities
- Using OS maps and reading keys to understand what they tell us about a place.
- Physical geography, including National Parks
- Conduct virtual fieldwork to learn different characteristics of places.
- Use symbols and key to build their knowledge of the wider world
- Use fieldwork to observe, measure, record and present the human and physical features in the local area using a range of methods, including sketch maps, plans and graphs & digital technologies
- Compare and contrast National Parks using all the key skills we have learnt.

Vocabulary

National Parks, OS Map, legend, Grand Prismatic Spring, Bison, temperature, physical geography, human geography microbes
