Rest of the programme by the children of Year 6

I'm Scara, very into science and wiring. I HATE being called "chick" and always feel really out of place, can anybody find me somebody to love?

Mouche: I'm a sassy, strong willed rebel teenager with a fiery spirit. I'm not like any of those GAGA kids- I want to break free!

Galli : I get called a bohemian but I don't know what it is! Me and Leo team up with other rebels to achieve our Rhapsody and turn Killer Queen down!

I'm Leo , I hear weird voices in my head in my head . My brother is Galli and we always stick together no matter what happens .

Meat: As a slightly bossy teenage rebel I am part of the underworld and will do anything to find the dreamer and save rock and roll!

Britney: I am the most rock and rolling bohemian ever to walk on this planet, if you come up to me, be prepared to get it all!

I'm Killer Queen. Gunpowder, gelatine, dynamite with a laser beam. I rule Planet Mall! My servants (the Yuppies) help me rule Globalsoft, a company that rules the planet

I am Khashoggi, Chief of Secret Police! At Your Service! I love torturing bohemians with my cops, but I'm scared of my boss, Killer Queen! She's the only person who scares me in life! Anyway, See you on the other side!

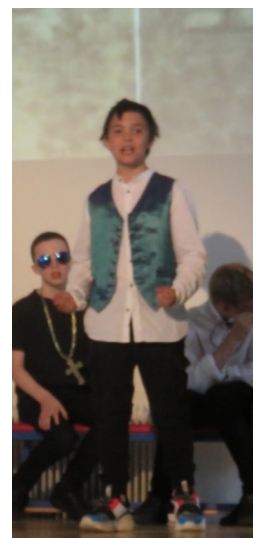

I am Pop, an old hippy librarian. I worked at the place where the secret histories are kept. I got a little to interested in the stuff that I was reading so Globalsoft processed me, or at least they tried..

BM: I am one of the head bohemians in the Heartbreak Hotel, at first I am very suspicious of the main 4. Due to they know the ancient text, yet have never read it, and result they are probably spies working for Global soft

I was a Hero and a legend in my time and I was a King of my song genre. Wembley was where I Ruled but It was destroyed a while back. I am now only Remembered by few and most my songs have been forgotten.

Gaga Kids

I am a Gaga Kid. We are programmed by Global Soft and all do the same thing at the same time. Killer Queen rules Global Soft and we are all afraid of her.

I am a frightened GaGa kid because of that Killer Queen who I bet is always up to no good with Commander Khashoggi.

Hi I am a brain washed kid that has been cloned. Smiles stay on my face whilst my movements are mostly the same to the others in every way.

Teen Queens

I'm a confident, sassy teenager who loves making fun of those horrible freaks- Scara and Mouche. All the Teen Queens are best friends, though we act like sisters.

I am a spoilt bratty bully. I hate people who are different! This is why I chose Scara, and Mouche to pick on!

Yuppies

I am a Yuppie, I am programmed by Killer Queen. Killer Queen is the owner of Globalsoft which makes her in charge of us. We are the workers of Globalsoft.

I am a yuppie terrified of Killer Queen (her name says it all) scared to rebel, all we do is take orders and complete them.

Bohemians

I am a Bohemian, an outcast ,we hide underground away from GaGa land ,away from Global Soft and Killer Queen! But are going to fight back!

I am a bohemian, a rebel, I want rock'n'roll to be reborn! I live at the Heartbreak Hotel, which is a secret bunker for me and my friends.

I am a rule breaking bohemian, standing with Britney and Meat to bring back music. I HATE Global soft and especially Killer Queen. THEY MADE MUSIC DIE!!!

Seven Seas

I am a Bar Patron ,who is always at the bar with my mates including Pop, having a good time chatting and singing songs like Hippies.

I am a hippy looking style character who is friends with Pop and a local of the Seven Seas bar

Kashoggi's Men

I am a sinister looking and straight to the point Doctor who has no mercy for the rebellious bohemians. FLASH! AH!

Tech

I am a technician. I'm in charge of creating and projecting the backdrops for the play.

I am a technology person ,so I do all of the behind the scenes stuff and make the slides for the powerpoint on the projector.

I am also doing the lighting, so I turn on the lights and turn them off in different scenes.

I am an operator. My job is to control the music, turning it on and off at the right time. It's a very important and special job to our end of year production

Art Work

Choreography

As a choreographer i have to make up a simple routine that everyone can do , however it has to look cool on stage . Sometimes you have to dance with them .

I am a choreographer, I have choreographed to lots of songs. Some are difficult, some are easy. I hope you enjoy our amazing dances.

Out takes!

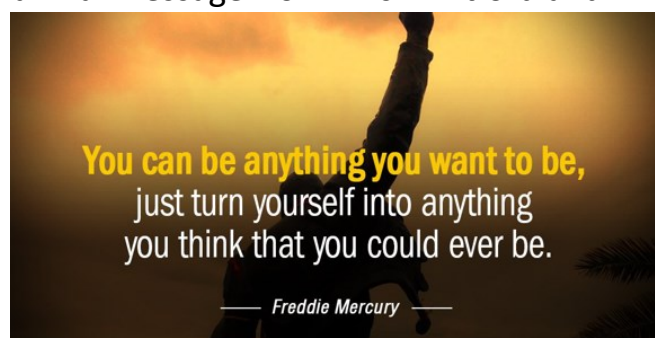

Thank you
