

Merdon Junior School

Year 4 Home Learning

Wild at Heart

Your child should pick one task during the next few weeks of learning to complete to a high standard. These tasks have been compiled using the children’s own suggestions, so we hope that this is an enjoyable experience for you and your child!

It is your child’s choice which activity they choose. They should spend some time to be creative and thoughtful in their approach and presentation. We would ask that Home Learning should be completed with care, and this should be reflected in what they present/create. Please feel free to give your child support and ideas with these tasks

- Model of a habitat/mini beast.
- Habitat based board game.
- Map of your garden which shows the organisms that live there.
- Make a bug hotel and record what you find.
- Write a story about the life of an animal.
- Fact file/information book/poster on a habitat.
- Produce a graph to show the type and number of organisms found in a habitat.
- Invent your own animal and create a habitat for it.
- Painting/collage of a habitat or organism.
- If you have an idea that is not on the list, then please use this option to complete an activity of your own choice!

We can’t wait to see these and we look forward to sharing them with the class. Home Learning should be in by Wednesday 11th October and will be displayed in the hall on Monday 16th October after school.
