

Merdon Junior School

Year 3 Home Learning

Inside Us

Your child should pick one task during the next few weeks of learning to complete to a high standard. These tasks have been compiled using some of the children’s own suggestions, so we hope that this is an enjoyable experience for you and your child!

It is your child’s choice which activity they choose. They should spend some time to be **creative** and thoughtful in their approach and presentation. We would ask that Home Learning should be completed with care, and this should be reflected in what they present/create. Please feel free to give your child support and ideas with these tasks and encourage their **creativity**.

- Creative animal art (2D or 3D – real or made up animal). What facts do you know about your animal?
- Make a birdfeeder/fatball. We can hang these around the school grounds.
- Choose a habitat and explore the animals which live there.
- Write a funny food poem.
- Design and make a healthy meal for your family. Record your work in photographs.
- Make a healthy food mobile or skeleton mobile.
- Visit a place with lots of animals. Creatively share the experience with the class. (Think habitats and food the animals need).
- Read a story about Wolves and find a creative way to share the story with others.
- If you have an idea that is not on the list, then please use this option to complete an activity of your own choice! The theme of Inside Us covers animals and humans, skeletons and nutrition.

We can’t wait to see these and we look forward to sharing them with the class. Home Learning should be in by Monday 5th February and a selection will be displayed in the hall on 7th February 2018 after school.
