

More practise -Dividing 2 digits by one digit.

Solve these using a method you are comfortable with.
Show your method in your book.

1.) $88 \div 4$

2.) $69 \div 3$

3.) $24 \div 8$

4.) $88 \div 8$

A bit harder...

1.) $56 \div 4$

2.) $65 \div 5$

3.) $95 \div 5$

Now check your answers - how did you get on?
