

Find Africa on the Map of the World. What can you say about this continent?

Find Africa on the Map of the World. What can you say about this continent?

Find Africa on the Map of the World. What can you say about this continent?

These are 5 things I came up with. What did you come up with?

- Africa is South of the United Kingdom.
- The Equator goes through Africa
- Africa is bigger than South America.
- Africa is smaller than Asia.
- There is a small island to the East of Africa.

Geography - Summer 1 Lesson 4

Remember the 4 points of the compass that we learnt about last term..

For each of the following maps, use the 4 compass points to help you describe the place. Write neatly in your exercise book. Remember to write the title first. I have started the first one for you. There is a writing template in the Geography section if you need it (**Lots of you can do this task without it - and can just look at the WAGOLL on the next page**)

What is Africa like?

What is Africa like?

Map 1

Africa is one of the World's continents. To the North of Africa is Europe. To the South of Africa is the Southern Ocean then, eventually, Antarctica.

Map 2

In the North of Africa, the land is _____ which means

In the middle it is _____ which means

In the far South _____.

Map 3

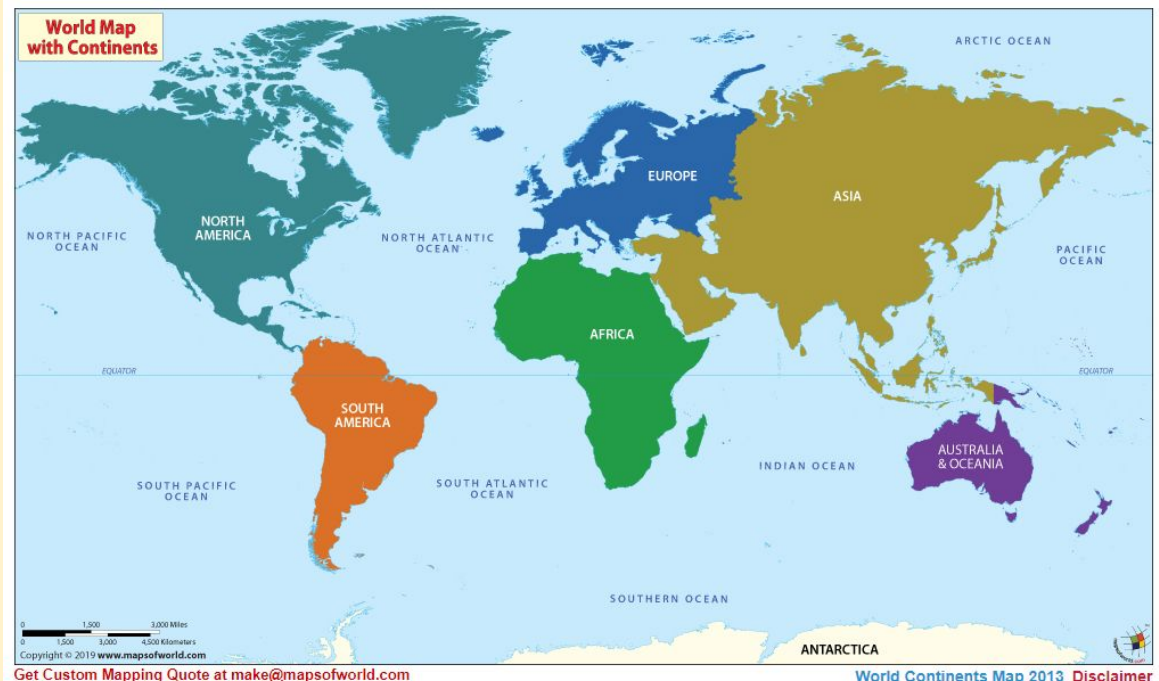

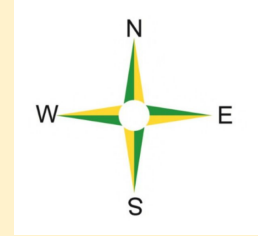

Map 4

Map 5

What is Africa like?

Map 1
