Adding Lengths

Solve these calculations:

Level 1

- 1.)  $26\text{cm} + 13\text{cm} = 39\text{cm}$
- 2.)  $42\text{m} + 25\text{m} = 67\text{m}$
- 3.)  $142\text{mm} + 31\text{mm} = 173\text{mm}$
- 4.)  $113\text{cm} + 44\text{cm} = 157\text{cm}$

Level 2

- 1.)  $1\text{m } 56\text{cm} + 5\text{m} = 5\text{m } 56\text{cm}$
- 2.)  $2\text{m } 12\text{cm} + 67\text{cm} = 2\text{m } 79\text{cm}$
- 3.)  $4\text{m } 67\text{cm} + 3\text{m} = 7\text{m } 67\text{cm}$
- 4.)  $3\text{m } 24\text{cm} + 1\text{m } 13\text{cm} = 4\text{m } 37\text{cm}$
